

One

The Chunc One has evolved from our success in the last few years. Listening to parents, healthcare professionals and carers we have designed our next seating and mobility solution.

The Chunc One offers a range of postural support options for people with moderate to complex disabilities. The modular construction allows for changes to be made to ensure the correct solution is found for the individual. We ensure that we can accommodate cross platform compatibility with other support and postural options available to therapists to prescribe. The Chunc One chassis allows for growth from a user weighing 15 kgs up to 110kgs total user mass.

The Chunc One has three styles, the Chunc One Tilt, the Chunc One Recline, Fold and Tilt and the Chunc One Recline slide and Tilt. The Chunc One Recline, Fold and Tilt allows the chair to recline back to 180 degrees, in the event of medical emergency and for personal care. It allows for chair to be transported in the back of a hatch batch car.

- 110kg Total mass
- Crash Tested ISO 7176 part 19
- Seat Depth from 20cm – 45cms
- Seat width from 15cm – 42cms
- Back Height from 36cm – 66 cms
- Optimises posture to enhance function
- Adaptive for growth
- Communications aids easily mounted
- Suitable for indoor and outdoor use.

The design ensures that the wheelchair is:

- Cost Effective
- Easy to use
- Economical to maintain
- Durable and reliable
- Adaptable and versatile
- Stylish
- Grows with the user
